

- Interface for constructing `elfi.Models`
 - Models as DAGs
- Easy API for running inference
 - <http://elfi.readthedocs.io>

elfi.ParameterInference

Methods available now (0.8.3)

- Rejection ABC
- ABC-SMC
 - Vanilla
 - Adaptive distance
 - Adaptive threshold selection
- Bayesian Optimization for Likelihood-free Inference - BOLFI
 - GP surrogate with multiple acquisition functions
- Robust Optimisation Monte Carlo - ROMC
- LFIRE (in zoo)
- BOLFIRE (in dev)
